

2013 User Conference - Call for Presentations

CollegeSource is seeking presentations about how your campus uses our products.

**Please complete and submit by 02/01/2013*

CollegeSource is seeking presentations about how your campus uses our products to help in the areas of: graduate programs, retention, recruitment, reporting, NCAA, academic planning, transfer articulation, term conversions, student tracking, graduation, and state policies and mandates.

If you have another topic of interest or success story that you are willing to share, we welcome all submissions. The annual CollegeSource User Conference continues to be a successful event year after year thanks to the commitment and dedication of our user community. The conference is a great opportunity to share your experiences, ideas, and success stories with colleagues as well as learn about future goals from the CollegeSource staff.

We encourage you to share what you have learned and make the conference even stronger by submitting a proposal for a **45-minute presentation**. Above are several topics we believe will make an interesting and educational agenda. Please consider organizing a panel discussion, submitting a joint presentation with a colleague, or sharing your personal experience to help make 2013 our best conference yet.

Submit all session proposals for consideration **by Friday, February 1, 2013**. We will begin the notification process shortly after receiving the submissions.

After completing the form, click the submit button or save and email the attachment to jennifer@collegesource.com.

Thank you in advance for your participation!

Primary Presenter Information

First Name:

Last Name:

Institution:

Job Title:

Email Address:

Phone:

Contact Information (If different from presenter)

Contact Name:

Contact E-mail

Contact Phone Number:

Presentation Info

Session Title:

Session Description:

Please provide a short description of your proposed session that is no more than 500 characters.

Type of Presentation:

A panel discussion consists of multiple speakers, each offering a perspective on an issue or set of issues. Campus perspective presentations share the experiences of several (two to four) institutions dealing with the same challenge on their respective campuses. Lecture-style presentations are the traditional format in which a topic is presented. All sessions should allow time for Q&A.

Names and institution for multiple presenter presentations (i.e. Jane Smith, CollegeSource University)

This session is related to the following product(s):
